Robust | Versatile | Micro-footprint

Xhibit Mykro, bundled with a cloud-based digital signage management software, makes any public-space display a truly dynamic communicator. The system is consolidated into a ultra-small form factor, at a one-time (no subscriptions) cost. With the web-based XhibitSignage CMS and integration with our SignageCreator suite (library of over 1000+ templates) users can easily create, manage and distribute content remotely.

State-of-the-art Software

Equipped with the state-of-the-art web-based software, Mykro supports HTML5 media playback, playlist management, comprehensive scheduling options, and a multi-role user management. Additionally, a versatile and easy-to-use software interface, enables quicker adoption and enhanced ROI.
