

HD Digital Signage w/ Video Input

Combine live TV on HD screens with advertisements, promotional content, news, traffic, weather, and more to create personalized channels. Keeping the screen fresh, and informative is key to attracting and engaging an audience.

An easy-to-use, drag-and-drop software enables screen layout customizations and scheduling.

Enhanced Revenue + ROI

Live TV digital signage displays enhance viewing experience and reduce perceived wait times. With an ability to intersperse live video feeds with promotional content provides positive ROI.

Media content can inform clients about specials and promotions or serve as a lucrative revenue generator to advertise local establishments.
