Full 1080p Media Decoding Technology

Supports popular 1080p HD video playback, including H.264, MKV, Divx HD, WMV9. Playback from over a dozen video formats (including MPEG 1/2/4, AVI, Divx, WMV etc.) on HD LCD or Plasma via HDMI interface.

Flexible and Scalable HTPC

For movies, TV shows, camcorder footage and more, the Mvix Ultio is capable of playing dozens of digital media files and formats including DivX® (3/4/5/6), Xvid, MPEG 1/2/4, WMV-9, ASF(WMV9), MKV, DVD(IFO, VOB), ISO, MP3, WMA, AAC, OGG, FLAC, AC3. The Media Center is completely Scalable – you decide what HDD-size suits you!

Built-In Torrent Client

Built-in Torrent Client, combined with NAS features provides an idea setup for digital media acquisition, storage and sharing.

Personal Video Recording

Combined with spectacular picture quality of HD video and crystal clear sound clarity of digital audio, the Ultio Pro allows analog recording of your favourite TV shows from the Cable or Satellite, or family videos from your Camcorder or even archive old tapes and DVDs to digital media files. Ultio Pro even supports time-shift and scheduled recording.

Network Media Playback

Network media streaming from a shared, password-protected folder of a PC or NAS or a server over Ethernet (RJ45) connection or a wireless-N network (optional). Complete Universal Plug and Play (UPnP) support with embedded Samba Client. UPnP allows for seamless integration with services like PlayOn (stream video content from Netflix, Hulu, CBS, Youtube, CNN, ESPN and much more)

File Management via Remote Control

Manage your entire media collection from the comfort of your living room. The media center is equipped for enabling complete file management features directly from the remote control - no need of a PC for its operations. Provides features like formatting hard-drive, Copy, Delete, Rename of files and even physical transfer of files between USB storage, Network shares, PC and its internal HDD simply via the hand-held remote.
